

# eSmart Digital Licence

eSmart  
Schools

## Get closer to achieving Status with the eSmart Digital Licence

The eSmart Digital Licence compliments the eSmart Schools Framework and can help schools tick off important domains including;

### Domain 4

Effective teacher practices – teachers use and model techniques that encourage positive peer relationships that enhance wellbeing and to help prevent the development of all bullying and other negative behaviours.

### Domain 5

An eSmart curriculum – explicitly teaches about rights and responsibilities, awareness of bullying, social and emotional skills, digital literacy and citizenship. It teaches about the smart, safe and responsible uses of technology and identifies where and how these are taught.

### Domain 6

Partnerships with parent and the local community – a range of education opportunities are provided to parents, including information on bullying, social learning and the smart safe and responsible use of digital technology.

By implementing the eSmart Digital Licence, teachers have an array of resources and lessons to use that specifically teaches students about the tools and strategies they require to prevent cyber bullying and how they can use the online world correctly and positively. The eSmart Digital Licence is developed with parents and the community in mind and encourages the sharing of learnings between home and school.
