e-Smart Library Project

- **What is e-Smart?**

A program to assist libraries in educating the community in the smart, safe and responsible use of digital technologies and the internet

5 Domains

Each domain has the following stages;

- Planning
- Implementing
- Sustaining

Project Plan-What have we done?

- Survey of staff and volunteers
- Engagement Workshop with Library staff
- Review of existing resources and website information
- Update to Digital Hub training materials

What next?

- Development of a resource toolkit for staff and volunteers
- Training for staff and volunteers
- Information on Library website for customers
- Partnerships to be developed and events to be planned for education to community
