If you are interested in attending one of these events, email Mentalhealthfirstaid@allianthealth.org to reserve your spot. Please be sure to specify your desired training date. These classes will be held from 8:30 a.m. - 5 p.m. with an hour break for lunch. (*Lunch will be on your own unless otherwise noted*)

Mental Health First Aid is a public education program that introduces participants to risk factors and warning signs of mental health issues, builds understanding of their impact, and provides an overview of appropriate supports. This 8-hour course uses role-playing and simulations to demonstrate how to offer initial help in a mental health crisis and connect people to the appropriate professional, peer, social and self-help care. The program also covers common risk factors and warning signs of specific illnesses like anxiety, depression, substance use, bipolar disorder, eating disorders and schizophrenia.

Please feel free to share this information.

Best,
Stacy
