

In-House Excess Flood Insurance Program

Provided by Program Brokerage Corporation

Understanding the appropriate insurance limits and proper coverage for a home or business is vital, yet many buyers continue to underestimate the risks they may face. Most standard flood insurance policies only provide coverage up to \$250,000 for residential properties and up to \$500,000 for commercial properties. Often times, this is nearly not enough coverage. If your clients' estimated cost to rebuild is higher than these limits, an Excess Flood Insurance policy is necessary to be sure that adequate funds are available to repair your clients' homes and/or businesses.

Program Brokerage Corporation is pleased to offer a new in-house Excess Flood insurance program, underwritten by a panel of A-rated carriers.
