SIMPLIFY

YOUR BUSINESS PROCESSES

Use the PartsTrader-ProfitNet Integration

If your collision repair shop uses the ProfitNet shop management application, you can now benefit from a *streamlined* process between PartsTrader parts procurement software and ProfitNet.

With the integration enabled, you use PartsTrader to source and order your parts. ProfitNet is *automatically* updated to reflect the status of parts for the job. You'll know at a glance the status of the job at hand.

If you're new to PartsTrader, you will be able use the collision repair industry's leading parts procurement and ordering software that works *effortlessly* with your shop management system.

If you're an existing PartsTrader user, you'll reduce redundant steps, avoid duplicate orders and increase your ordering accuracy. Your process becomes more *efficient* without even trying!

Get Started Today!
Call YADA Systems at **(800) 634-2614.** Request the PartsTrader integration and training.
