

PLANNING FIELD PLACEMENTS

FROM CLASSROOM TO WORKPLACE

Our planning students are interdisciplinary thinkers eager to contribute to more sustainable, inclusive and vibrant communities. The Field Experience Program is a requirement for students to participate in field placements and further develop their skills while accumulating credit towards their degree.

OUR STUDENT COMPETENCIES INCLUDE

- Critical thinking and ability to assess complex planning situations
- Ability to evaluate planning challenges from multiple perspectives
- Knowledge of planning law, local government and legislation
- Understanding of environmental design and place-making approaches
- Professional report writing and presentation skills
- Experience with research design, data collection and analysis
- Ability to develop scenario-based planning alternatives and solutions
- Understanding of policy development tools
- Commitment to working ethically, responsibly and energetically in teams and individually

YOUR COMMITMENT AT A GLANCE

Paid or unpaid

12-16 Weeks
Part-time or Full-time
Flexible Schedule

Workplace orientation
Supportive environment
Feedback

OUR GRADUATE STUDENTS ARE LOOKING FOR OPPORTUNITIES IN PUBLIC, PRIVATE & NON-PROFIT SECTORS IN AREAS SUCH AS:

- community planning
- urban development
- municipal and regional governance & administration
- public involvement
- social policy & planning
- environmental planning & design
- food systems
- housing
- transportation planning
